program for kids; and 2) Reduce health risks through expansion of physical activity programs provided by the City and/or in partnership with others.

Another focus area is to have a Secure Community. One goal is to maintain safe public facilities and parks. One of the initiatives is: The city will ensure that all public facilities are safe.

The Commission can develop long terms goals for the golf course that deals with the course itself, the clubhouse, maintenance shop, equipment, etc. Also the Commission should develop some goals that tie into the City's strategic plan especially with those two objectives under the Healthy Community focus area.

4. Other Items from Commission

Other items from the Commission can be brought up to discuss or to be added on next month's agenda.
