Brian went through each of the alternatives and the costs involved during his presentation. The committee asked questions as he went through these presentations about rock fall mitigation, pedestrians, painting, signage.

Brian did a recap of alternatives 1, 1A, 2 and 3, and gave the estimated costs for these.

John Lezamiz stated that alternative #6 seemed to be the best option.

Phil asked the committee to analyze the alternatives and give their opinion of this, such as where they are leaning, if they need some additional information. Phil also suggested that sometime in the near future, we should make an interim report to the City Council about what we are finding here and he suggested maybe get them to referred it to some kind of public process to get some public involvement as well.

Todd Schwarz also expressed support for alternative #6.

Dave McCullum expressed concern about how easy it is for the City to raise the money for these improvements.
