Date

Engineering Dept. Final Sign Off

Date

- Please contact the **Engineering Inspection phone line at 208-735-3446** for final sign off to close out this permit.
- See Page 2 for construction, inspection & testing requirements.

Construction Requirements:

- Applicant must contact DIGLINE at 1-800-342-1585, 811, or through the WebTicket Program via their website at www.digline.com. Underground utilities must be located and marked prior to any excavation work.
- All construction must meet the 2015 Idaho Standards for Public Works Construction (ISPWC) and the City of Twin Falls Revisions to the 2015 ISPWC (City Revisions). City Revisions including standard drawings can be found on the City website at www.tfid.org.
- All construction materials must be from a source approved by the City of Twin Falls Engineering Department (gravel, concrete, asphalt, etc.). These requirements include the asphalt patch-back in the street to the adjoining curb & gutter.
- Applicant is responsible for site safety during construction activities including traffic control.
- Applicant must provide a traffic control plan, which must be approved by the City, if there are to be lane or roadway closures.
- The applicant must give the City 24 hours notice before any lane or roadway closures are permitted. Please contact Mark Thomson at 208-308-7326 with closure information.
- Applicant must provide a map of the area the work will be taking place.

Inspections & Testing Requirements:

1. A **visual inspection** is required on all subgrade dirt work.
2. **Inspection & testing** is required on gravel base and concrete forms for sidewalk, curb & gutter & driveway.
3. **Inspection & testing** is required on gravel base for street section for asphalt patch-back.
4. **Visual inspection with final sign off** by City Engineering Department. Please contact **the Engineering Inspection phone line at 208-735-3446** for final inspection and sign off.

Projects UNDER 50 linear feet: Shall be tested & inspected by the City Engineering Department. Please contact **the Engineering Inspection phone line at 208-735-3446** to arrange for testing and inspections. **24 hour notice is required.**

Projects OVER 50 linear feet: Shall be tested and inspected by an **independent firm**. The independent firm shall follow the required inspection process as listed above and submit all testing & inspection documents to the City Engineering Department.
